Before Start

This adaptor can be used with Thunderbolt Display, Apple LED Cinema Display, 24-inch iMac (aluminum), and 27-inch iMac. Compatible with VESA FMD1 (MID-D, 100, C) compliant mounting solutions.

You may have to remove the two plastic bars as shown in the left picture in order to install the adaptor on some displays.

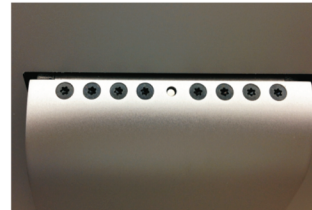

Step 1 Remove the desk stand from iMac

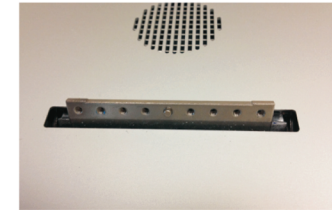

Insert the plastic sheet-C to push the spring inside the iMac, force upward for the plastic sheet

Push the top of the iMac while the plastic sheet is pushing the spring until see the 8 screws

Remove the 8 screws by the supplied tool-G

Remove the iMac desk stand once the 8 screws were removed

Step 2 Install the metal bar on the iMac

Use the 8 screws removed from the iMac to install the metal bar-B

The metal bar-B was installed on the iMac

Step 3 Install the adaptor plate on metal bar

Install the bolts D,E by the supplied tools F, G

Picture shows the bolts had been installed
